Dear Geoffrey

Thank you for reviewing '*State Domination in Modern China: An Examination of the Applicability of the IMEP Model for the Analysis of Chinese Politics in the Twentieth Century*' by Patrick Kuang-Hao Hou.

Your suggestions, and those of Professor Delia Davin from the University of Leeds, who also reviewed the work, were passed on to the author for consideration.

A copy of the completed work is enclosed with our complements.

You may be interested to know that we are currently investigating Google's e-book system, which would be of great benefit to our overseas authors and customers.

Once again, thank you very much for your assistance in reviewing Patrick Kuang-Hao Hou's book.

Regards
